

Dinner/Dance Benefit

For Ashley Thompson

Ashley is a member of the Front Office at the Florence Freedom Baseball Club. She was diagnosed with cancer in February of 2008. In July, after being in NYC receiving radiation treatments, she was declared cancer free. She went back to NYC in the beginning of November for a routine scan. The results showed that not only the cancer is back, but it has spread to her lungs. We are trying to raise money, not only to help her out with medical bills, but with living costs as well. Any donations would be greatly appreciated.

Saturday January 10, 2009
